Curious about monthly payments?

The chart below can give you an idea of what a monthly contribution to your policy might be. This chart is from Mutual of Omaha/United of Omaha, which is one of the premier end-of-life policy providers. The proceeds from the policy can be used for anything and don't have to be used for funeral expenses. The product name is *Living Promise*, the premiums are fixed and don't increase. It's a permanent policy that can't expire, the coverage can't decrease in value, and the beneficiary will receive a tax-free cashier's check for whatever amount of coverage you purchase. There are no medical exams to schedule, only a few health questions will be asked on the application. The policy won't be cancelled for any reason. It offers coverage beginning the first day the policy takes effect. You must be between the ages of 45-85 when you take out the policy. (This product isn't available in NY)

NOTE: These are limitations specific to Mutual of Omaha; other providers may have different limitations and prices. We've included this to help give you an idea of cost/value for consideration.

Check with your insurance agent to get more information about policy options and current rates.
